

Service Offered – Contractor Notification Service

Our initial cost and annual subscription includes the following:

- Design a QR code and having QR code created in vinyl applied to an acrylic sign;
- Apply 1 x QR code to front entry to building (the supply and installation of additional signs at \$75 per sign if multiple entry signs are required);
- Email Notifications to nominated representatives as to when a contractor is onsite to carry out work;
- Details of work carried out as supplied by the contractor; and
- Email notification to nominated representatives as to when the contractor leaves site.

We will also provide and maintain a web landing page that allows registered visitors to view information relevant to the building, including:

- Building address, type, number of lots;
- Colour photographs of key aspects of the building including street view, topographical view;
- Recommended emergency assembly area or copy of building's evacuation diagram;
- Description of key operational aspects of the building including access, parking and site contacts;
- If contractor notification service is selected, access to a contractor visit history and activity log file; and
- Access to building specific compliance reports, building plans and other relevant documentation as determined by the owners.

No of Lots	Initial Cost for First Year	Subsequent Annual Subscription
2-9	\$180.00	\$60.00
10-19	\$255.00	\$135.00
20-39	\$405.00	\$285.00
40-59	\$525.00	\$405.00
60-79	\$645.00	\$525.00
80-99	\$755.00	\$635.00
100 +	\$855.00	\$735.00

Please Note:

- ★ These prices only apply to complex that are within a 75km radius from the CBD.
- ★ Please attach a copy of the Registered Plans when ordering this service.
- ★ If no price has been entered for an Order Request in Quoted Fee – charge will be as per the Contractor Connect Standard Advertised Pricing Structure.

PRICING AND QUOTATION BASIS

The basis of the pricing of the Contractor Connect Contractor Notification service is an online platform for the tracking and provision of sign in, sign out, geolocation and communication of works performed from the contractor to the nominated representatives.

The Contractor Connect Contractor Notification services are limited to the inclusions noted above in the service offerings.

Contractor Connect Pty Ltd will create a building webpage with photographs of the building and relevant building information allowing registered viewers to access information about the building, assisting the registered viewers in their works. On the acceptance of the quote, issuance of a work order and payment of the relevant fee, being the initial cost for in the first year, Contractor Connect Pty Ltd, or an authorised representative of Contractor Connect Pty Ltd, will commence works on the creation of a QR Code and building webpage. Contractor Connect Pty Ltd may request building information from the Strata/Body Corporate/Owners Corporation Manager to assist them in completing the building webpage. Building information to be provided include, but are not limited to the following:

- Property Plan Number and Type;
- Property Name;
- Property Address;
- Strata/Body Corporate/Owners Corporation Manager and details; and
- Onsite Contract and details (if required).

Contractor Connect Pty Ltd will require a list of Contractors and their relevant contact details in order to create unique identification PINs for their access into the system. If possible, the list of Contractors should be in an exported Microsoft Excel or CSV file and contain a list of all Contractors for the site. Additional fees may be payable where Contractors are required to be inputted individually into the system and may cause delays.

Contractor Connect Pty Ltd, or their authorised representative, will attend the building site at least once to install the QR Code. Additional site visits may be required to obtain site photographs of the building for the webpage. We request that in instances where there is a barrier to entry or it is a requirement to meet with an onsite representative, that this be communicated to us in the work order form and prior to our attendance on site.

Contractor Connect Pty Ltd makes no warranties as to the accuracy of the information provided in relation to the contractor tracking portion of our software. The Building History Log tracks Contractors via the scanning of a QR Code located at the site. In order for the tracking to occur, it is a requirement that the Contractor signs in and out of the site by scanning the QR Code upon entry and exit of the site. The tracking system allows for the geolocation of the Contractor, however, the contractor must enable location services on their smartphone prior to scanning the QR Code for this feature. Contractor Connect Pty Ltd does not verify each contractor submission to the history log and the accuracy of the information provided by the Contractor. The software is simply a communication platform used to create a history log of Contractor entries to site and streamline communication of attendance on site and works performed from the Contractor to the nominated representatives. Should there be any issue with regards to time spent on site or works performed, we advise that this issue be raised with the Contractor.

This Price List is subject to change at the discretion of Contractor Connect Pty Ltd.

If there is anything further we can assist with, please do not hesitate to contact one of the team at your earliest convenience.

Warm Regards

The team at Contractor Connect Pty Ltd
